Grammar topic	Sentence from your brief	What is it expressing? (real experience / present imagination / past hypothesis)
Present Perfect	"Users have asked it to set alarms and add items to the shopping list, and it has replied with long sentences that they have to read and act on in another app."	real experience
Second Conditional	"If assistants built the right screen for each request, people with little experience with apps would complete tasks on their own."	present imagination
Perfect Conditional	"In user tests, if the assistant had shown a simple card with a button, people would have finished the task in half the time."	past hypothesis
